FREE Digital Families Course

A course for mothers and fathers with children at St. Gregory's Middle School

A course for parents who have not used a computer before or who are not confident using a computer and the internet to support their child(ren)'s learning

St. Gregorys Middle School

Biddenham Turn, Biddenham, Bedford, MK40 4AT
(Telephone 01234 268649)

Starting: Thursday 16th September 2010
3:45 – 5:45 pm for 10 weeks

- Build skills and confidence in using ICT for email communication, finding information online, basic word processing and spreadsheets
- Find out about ways you can use your new ICT skills to support your child(ren) to use a computer
- Learn how to keep your child(ren) safe on line
- Become more aware of new technology and its uses as a link between school and home
- Access web sites to find and use information to support your child(ren)'s and your own learning
- Brush up your literacy and numeracy skills online if you need to so you are better able to help your child(ren) with homework
- Work towards an ICT qualification if you want to
- Information about Home Access funding for a free computer and internet access if you have a child in year 3 – 9 and do not have a computer and internet access (subject to eligibility)
- Sessions are informal, fun and relaxed and will be paced to suit those who are not confident with computers. The tutor will provide 1:1 support to help you build your skills.

✂-----
