FREE Digital Families Course

A course for mothers and fathers with children at St. Josephs Lower School

A course for parents who have not used a computer before or who are not confident using a computer and the internet to support their child(ren)'s learning

St Josephs Lower School

Chester Road, Queens Park, Bedford, MK40 4HN
(Telephone 01234 352062)

Starting: Thursday 23rd September 2010

9:30 – 11:30 am for 10 weeks

- Build skills and confidence in using ICT for email communication, finding information online, basic word processing and spreadsheets
- Find out about ways you can use your new ICT skills to support your child(ren) to use a computer
- Learn how to keep your child(ren) safe on line
- Become more aware of new technology and its uses as a link between school and home
- Access web sites to find and use information to support your child(ren)'s and your own learning
- Brush up your literacy and numeracy skills online if you need to so you are better able to help your child(ren) with homework
- Work towards an ICT qualification if you want to
- Information about Home Access funding for a free computer and internet access if you have a child in year 3 – 9 and do not have a computer and internet access (subject to eligibility)
- Sessions are informal, fun and relaxed and will be paced to suit those who are not confident with computers. The tutor will provide 1:1 support to help you build your skills.

To enrol on the **Digital Families** course please complete this slip, return it to **St. Josephs Lower School**

We do not call to confirm places just come along to school reception at

9:30 am on Thursday 23rd September 2010.
